

# CONSTRUCTION MANAGEMENT

## WHO WE ARE

Clover Leaf Solutions, Inc. offers an array of innovative services, including environmental, health and safety consulting, construction management and inspections, and information technology solutions. We're headquartered in Albuquerque, NM.

***The Clover Leaf Construction Management team is committed to safely achieving project goals and specifications – with a razor focus on quality work.***

## OUR SERVICES

### CONSTRUCTION MANAGEMENT

Our Construction Managers and Supervisors ensure a high level of construction quality is maintained for all projects, oversee the day-to-day aspects of a project and workloads, and serve as the key site contact with client project managers. An overview of our services follows:

- Scheduling, including subcontractors
- Materials delivery
- Coordinate subcontractors and inspectors
- Arrangement of construction & progress meetings
- Point-of-Contact for client communications
- Budgeting
- Construction safety
- Quality assurance and quality control
- Adherence to project specifications
- Compliance with regulatory and client requirements
- Owners representative
- Construction Claims Experts

### INSPECTION SERVICES

All Clover Leaf Inspectors are properly certified and trained in their field. They enforce all applicable codes; verify that job and client specifications are met; ensure that safety and quality goals are attained; and identify and report any concerns to the appropriate site and client project managers. Our inspectors are qualified in the following areas:

- Electrical (including high voltage and controls)
- Mechanical
- Plumbing
- Architectural
- Civil
- Structural

## PROJECT SPECIFIC EXPERIENCE

### SANDIA NATIONAL LABORATORIES

**Sandia  
National  
Laboratories**

Clover Leaf has successfully performed construction management and inspection (CM&I) services for Sandia National Laboratories (SNL) since August 2013. We have assembled a productive team of experienced Construction Managers and Inspectors to bring Sandia customized, personal service at the SNL California and New Mexico sites. We fulfill more than 100 work orders annually and are proud to say that, regardless of expected and unexpected challenges, we have completed projects on-time and on-budget. In addition, we are also currently overseeing a large abatement project at both the California and New Mexico sites.

### LOS ALAMOS NATIONAL LABORATORY

Clover Leaf personnel work closely with the Los Alamos National Laboratory (LANL) Construction Safety Team on demolition and construction projects throughout the site, serving as Asbestos Subject Matter Experts for abatement activities. Clover Leaf also provides health and safety staff, construction safety professionals, and AHERA trained Asbestos Supervisors to oversee field operations. Key projects include:

- TA-21 Manhattan Project Chemical Waste Landfill
- Chemistry and Metallurgy Research (CMR) Facility
- TA-3 Administration Building
- TA-18 Demolition of Cold War Era Structures
